

b1  
cont a first mounting member for rigidly securing a console to said unitary platform;

a shock mount, said shock mount located between said support structure and said unitary platform, said shock mount for supporting said unitary platform in a condition where the sole support for the unitary platform is the shock mount so that the unitary platform is free to remain spatially fixed to isolate the unitary platform from the effects of high "g" shocks with the operator station and the unitary platform further inhibiting opportunity for operator injury by simultaneously preventing the operator station and the unitary platform from moving relative to one another.

---

b1  
cont 9. The shock-isolation system of claim 8 including a second mounting member for securing the operator station thereto.
